

Curls & Curves

Cosmetic Surgery Centre

Liposuction : Excess, unwanted fat which is resistant to diet & exercise can be removed safely with Liposuction from different parts of the body. Results are permanent.

Rhinoplasty (Nose Reshaping / Nose Job) : Rhinoplasty corrects any nose shape abnormality happened by birth or trauma. It also corrects nose block or breathing problems.

Breast Augmentation / Breast Reduction / Breast Lift : Breast is enlarged by implants or fat grafting. Breast can be reduced to match their personality. Breast lift is required for post pregnancy clients. These procedures does not cause breast cancer nor cause any problems in breast feeding.

Tummy Tuck : Post pregnancy tummy will have excess bulge because of excess fat deposition, muscle weakness, excess loose skin & stretch marks. All these problems are taken care of in Tummy Tuck procedure, giving good definitions.

Hair Transplantation : Procedure gives natural hair which grows & stays for life time.

Gynaecomastia : It's a male chest enlargement. Diet & exercise will not help them. Surgery is the only solution which gives results immediate & remains permanent.

Facial Rejuvenation : Face lift / Neck lift is quite helpful to improve wrinkles, folds & other age related changes. Results will stay for long term. Dimple creation can be done for those who don't have one.
