

# Trusted by millions of customers across the world.

We at Nutrilite, grow, harvest and process plants at our own certified organic farms. This means, that there are no pesticides, no artificial colours or preservatives in our products. And that from seed to supplement, we ensure our product is 100% pure. Of course this should come as no surprise from a company like us, who've dedicated 75 years of expertise to perfecting the process. And we're also the world's leading brand of vitamins, minerals and dietary supplements.\*\* So it's only natural that Nutrilite has the trust of millions across the world.
